

It's On

Come on!

Save some for me, it's what I like

I wanna play, you know it's time

Something is calling, I can't keep from falling

Come on!

It's on!

Now see it's my fault, angels stabbing me inside

Nothing changes, just rearranges, for me this

time

Once I cave in, what can I fight?

I can never win, my self I don't like

I don't like, I don't like, I don't like

Something is calling, I can't keep from falling

Come on!

It's on!

You see it's my fault, angels stabbing me inside

Nothing changes, just rearranges, for me this

time

This time. This... time

For me, inside. Put me inside

Hold me, this time. Put me inside

Come on!

It's on!
