

When You're Not There

*It's a pretty thing there to hold your head
It's like the sanity is hanging on a thread
The flesh is cold and needs some nails
And the look you give, it never fails*

*I love the way you hurt me
I love that you don't care
My love is dark and twisted
And I scream when you're not there*

*It's the interesting way, it fills my brain
It's been beneath my eyes, but never the same
I love it when you're heavy and crack a smile
The best is when you make it last a while*

*I love the way you hurt me
I love that you don't care
My love is dark and twisted
And I scream when you're not there*

*Can't seem to get away
This ghost I'll never find
It haunts me 'til this day
I can't get back my mind*

*I love the way you hurt me
I love that you don't care*

*My love is dark and twisted
And I scream when you're not there*
